IETF - 42 YEARS OF AN EVENTFUL JOURNEY

The Indian Economic growth story started with 1991 when we made our market more accessible, This was done by introducing a number of economic reforms from that point in time Indian economy has been growing at a steady pace.

India, today, is well established as a credible business Partner, preferred investment destination, rapidly growing market, provider of quality services and manufactured products, having carefully built its reputation keeping in mind the local conditions and international demands, India stands on the threshold of unprecedented growth .

The India Industry is today regarded as an innovative and competitive technological hub. Our products and services are coveted the world over not only for their cost effectiveness, but also for their reliability and quality, through the liberalization regime, we were able to unleash powerful market forces in to international area, resulting in unprecedented flow of capital, technology and expertise into our industry

As the country opening up to globalization regime in 1984, IETF was the front-runner towards achieving results towards economic future of our nation. Having grown exponentially from 1975, the trade fair is a great pride for India and is now reorganized as one of the leading event of CII in its long journey. It has achieved the Status of a Comprehensive international B2B Show in this part of the World with the congregation of Industry leaders, Policy makers and the diplomatic community.

Over the years, the fair held biennially, has grown from strength to strength, with every event in stature and in dimension, expanding to incorporate the entire gamut of industry activities. Dynamic in nature from its inception, each edition introduced a new concept, a new platform or initiated yet another medium of dialogue. Across this time, Italy, U.S.A., UK, Germany, Japan, South Korea, Spain, China, South Africa have all been partner countries.

IETF is strongly supported by the Government of the host country and the participating countries, besides active participation and cooperation from the relevant industry associations in India and abroad.

Logistics 2015

Logistics industry plays a vital role in economy of industry since it forms the backbone of any industry. Increase in cost of logistics of any industry directly affects the cost of production and competitiveness of any industry. To provide a comprehensive platform for logistics industry, CII has been working with logistics industry.

Confederation of Indian Industry (CII) along with CII Institute of Logistics organised the 8th Edition of India's Premier Logistics & SCM exhibition and conference, "Logistics 2015", from 26th – 28th February 2015 at Pragati Maidan, New Delhi, India. It was a concurrent event along with 21st International Engineering and Technology Fair 2015 (IETF 2015), a premier bi-annual event of CII since 1975. Japan was partner country for this edition of IETF.

IETF 2015, segmented into well-defined relevant sections of the engineering & manufacturing industry, was an ideal platform to showcase equipments, innovative technologies and solutions to investment decision makers and users from all over India and neighboring countries. IETF 2015 brought buyers and sellers together with a comprehensive display of technology and solutions.

Inauguration of Logistics Exhibition by (L-R) **Mr Rajeev Kaul**, Chairman, CII National Council on Trade Fairs & Chairman, NICCO Corporation Ltd, **Mr K U Thankachen**, MD, CRWC Ltd, **Mr R Dinesh**, Chairman, Logistics 2015 & Managing Director, TVS Logistics Services Limited, **Mr Anshuman Singh**, MD & CEO, Future Supply Chain Solutions; **Mr Asokan Sattanathan**, Member – CII Institute of Logistics Council & Director, Beta Solutions.

India being one of the fastest growing economies has great potential for growth in every sector. Logistics industry is the backbone of development and a strong and growing logistic sector indicates healthy trend of growing economy. Further, the impetus provided by the Government of India is expected to boost the economic growth and special focus on infrastructure will further help Logistics Industry to grow. Indian Logistics Industry is at developing stage with technology usage at its minimum level. With large multinationals players entering Indian market with introduction of technology, face of logistics sector is also changing fast.

Logistics 2015 was an ideal platform for companies involved in Logistics Services, Material Handling Equipments, Warehouse & Storage, Equipments and Systems, Transportation and Cold transportation, IT and ITES services, Shipping, Ports and ports infrastructure.

The event received a very good response from the Industry. The exhibition attracted around 3500+ Business Visitors and 400 Delegates for the 2 day Logistics Summit.

About CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering industry, Government, and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, playing a proactive role in India's development process. Founded in 1895, India's premier business association has over 7200 members, from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 100,000 enterprises from around 242 national and regional sectoral industry bodies.

CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, healthcare, education, livelihood, diversity management, skill development, empowerment of women, and water, to name a few.

The CII theme of 'Accelerating Growth, Creating Employment' for 2014-15 aims to strengthen a growth process that meets the aspirations of today's India. During the year, CII will specially focus on economic growth, education, skill development, manufacturing, investments, ease of doing business, export competitiveness, legal and regulatory architecture, labour law reforms and entrepreneurship as growth enablers.

With 64 offices, including 9 Centres of Excellence, in India, and 7 overseas offices in Australia, China, Egypt, France, Singapore, UK, and USA, as well as institutional partnerships with 312 counterpart organizations in 106 countries, CII serves as a reference point for Indian industry and the international business community.
